

REQUEST VIA COMMUNICATIONS

From: § 22(1)
Sent: January-16-18 1:53 PM
To: § 22(1)
Subject: Questions about sexual assault and harassment on public transit

Hello, I am a reporter with The Globe and Mail. I am researching sexual assault and harassment on public transit across Canada. I have a series of questions and data requests that I am making to transit systems across Canada. Could you please respond to the following questions:

1.

1.1 How do you define incidents of a sexual nature? What falls under this category?

1.2 When do you record an incident of sexual assault or harassment? Does it have to be reported by the victim or could it be witnessed by an operator or bystander? Do incidents need to be investigated to be recorded?

1.3 Which police force does your transit system work with? When are incidents referred to the police?

1.4 Are you able to provide the past 5 calendar years (from January 1, 2013 to December 31, 2017) of data on sexual assaults/harassment on transit without an FOI request? Should this request be done through you, or the police force you work with or both?

I am specifically seeking data on all sexual crimes in the transit system or at transit facilities (stops, stations etc.). Please provide all of the following information for each incident in an excel spreadsheet:

- date of incident
- general type of location of incident (bus, bus stop, train, train station etc.)
- route, if applicable
- specific address of incident
- type of incident (exhibitionism, groping, voyeurism, etc.)
- gender of perpetrator
- gender of victim
- outcome of incident (criminal charges, ban from transit system, none etc.)

Note: I am happy to amend wording of this request if for some reason this information cannot be provided in the current form it is being requested. Please contact me as soon as possible to ensure I am able to work with you in order to obtain the information I am seeking.

2.

2.1 How do you monitor repeat sexual offenders on your system?

2.2 Does your transit system ever ban or restrict members of the public from using your services?

2.3 What type of issues can lead someone to be banned or restricted from using your transit system?

2.4 How many people are currently banned from using your transit system?

2.5 Can you provide the list of people banned from your system and the reason each individual was banned?

2.6 What measures are taken to enforce these bans?

2.7 When a court puts conditions on someone's use of transit, is this information conveyed to you? If so, how do you monitor these conditions?

2.8 Does data exist on how many incidents of sexual assault or harassment were perpetrated by someone who had previously offended on your transit system? Are you able to provide this to me or do I need submit an FOI request? If it is possible to provide me this data could you please provide it for each year from January 1, 2013 to December 31, 2017.

3.

3.1 Does the data from question 1 include incidents at stops or when people are followed from transit stops/stations? or only incidents on transit property?

3.2 Are bus stops considered transit property?

3.3 Does safety at bus stops fall under your jurisdiction?

3.4 What safety precautions are taken at bus stops?

3.5 How many of your bus stops have some sort of safety feature at them?

3.6 How many stops does your transit system have in total?

4.

4.1 Can you please list the dates you have run campaigns against sexual harassment/assault on transit and describe what those campaigns involved from Jan. 1, 2013 to present date?

4.2 What current safety measures do you have in place to prevent sexual crimes on your transit system?

4.3 How long do you keep security camera footage?

4.4 Can you list any routes that exceeded the crowding standards in the past five years? Please include year, name of route that exceed crowding standard.

4.5 Please provide the most recent gender breakdown of your ridership.

5.

5.1 Can you please provide similar data to question 1 but on sexual assault/harassment of transit staff?

Specifically, all reported incidents of sexual crimes against transit staff from January 1, 2013 to present date. Please provide all of the following information in an excel spreadsheet:

- date of incident
- general type of location of incident (bus, bus stop, train, train station etc.)
- route, if applicable
- specific address of incident
- type of incident (exhibitionism, groping, voyeurism, etc.)
- gender of perpetrator

- was the perpetrator also a transit employee
- gender of victim
- outcome of incident (criminal charges, ban from transit system, none etc.)

6. Can you please provide data on hate crimes January 1, 2013 to present date in an excel spreadsheet including:

- date of incident
- general type of location of incident (bus, bus stop, train, train station etc.)
- route, if applicable
- specific address of incident
- description of incident
- outcome of incident (criminal charges, ban from transit system, none etc.)

My deadline is January 29th. If you need longer please at least let me know and I will try to accommodate this. However, if I need to submit an FOI request for **any part** of this request please let me know on or before the deadline.

Best,

s.22(1)

Any dissemination or use of this information by a person other than the intended recipient is unauthorized and may be illegal.

RESPONSE

1.

1.1 How do you define incidents of a sexual nature? What falls under this category?

Answer:

- a. We define a sexual offence, including sexual assault, with the Criminal Code definition of the various sexual offences (e.g., indecent act, sexual assault, invitation to sexual touching, etc.). If it is an incident that doesn't meet the threshold of a criminal offence but instead is non-criminal harassing behaviour of a sexual nature, we would still investigate, e.g., lewd, abusive remarks, because investigating and reducing harassing behaviour whether it is criminal or not is part of our mandate.
- b. For a complete list of sexual offences, please see the Criminal Code of Canada.

1.2 When do you record an incident of sexual assault or harassment?

Answer:

Whenever it is reported to us.

Does it have to be reported by the victim or could it be witnessed by an operator or bystander?

Answer:

It does not need to be reported by the victim – it could be reported to us by a witness and we would still investigate to the extent possible.

Do incidents need to be investigated to be recorded?

Answer:

No – if someone reported a sexual assault but didn't want to proceed with an investigation leading to possible charges, but just wanted it on file, it would still be recorded as an incident.

1.3 Which police force does your transit system work with? When are incidents referred to the police?

Answer:

In the Metro Vancouver Transit Police, we work collaboratively with all jurisdictional police forces in the region, but we are a fully accredited public police force with exactly the same provincial police powers as a municipal police force so we do not need to refer such incidents to another police force. < www.transitpolice.ca >

We are the only police force in Canada dedicated to a transit system.

Where a serious crime has occurred, Transit Police will confer with the impacted Jurisdictional Police to determine who will be the lead investigative agency.

1.4 Are you able to provide the past 5 calendar years (from January 1, 2013 to December 31, 2017) of data on sexual assaults/harassment on transit without an FOI request? Should this request be done through you, or the police force you work with or both?

Answer:

We can provide much of the data you have requested, but will not provide personal or identifying information.

Transit Police cannot provide data on files/investigations conducted by partner law enforcement agencies; these requests would have to be directed to the individual agencies.

In some cases you have asked for significant detail that is not readily available. To meet your timelines, we will provide what information we have at hand. You can make an FOI request in the future, but the volume of work required may require payment of a fee as described in FOIPPA.

I am specifically seeking data on all sexual crimes in the transit system or at transit facilities (stops, stations etc.). Please provide all of the following information for each incident in an excel spreadsheet:

-date of incident

-general type of location of incident (bus, bus stop, train, train station etc.) (column 'Location' in spreadsheet. (15= Bus/Bus Shelter, 16= Skytrain/Subway and/or Stations))

-route, if applicable Information not available.

-specific address of incident For privacy reasons we cannot provide specific address information.

-type of incident (exhibitionism, groping, voyeurism, etc.) Please see the attached spreadsheet.

-gender of perpetrator (This information is captured within the records management system but would take time and reassignment of resources to collate against the specific file types and timeline that you have requested)

-gender of victim (This information is captured within the records management system but would take time and reassignment of resources to collate against the specific file types and timeline that you have requested)

-outcome of incident (criminal charges, ban from transit system, none etc.) Please refer to the column 'Status' in the attached spreadsheet.

(A= Unfounded, B= founded not cleared, C=Charged, L= Complainant won't lay charge, O= Departmental Discretion, R=Alternative Measure))

Note: I am happy to amend wording of this request if for some reason this information cannot be provided in the current form it is being requested. Please contact me as soon as possible to ensure I am able to work with you in order to obtain the information I am seeking.

Answer:

Attached is an excel spreadsheet named 'Transit Police_Crime Data_Jan 2018' with the information we can provide within the timelines identified.

2.

2.1 How do you monitor repeat sexual offenders on your system?

Answer:

- The Transit Police Offender Management Program (OMP) focuses on chronic offenders operating on the Transit System.
- Transit Police defines a chronic offender as a persistent criminal who causes significant risk to the travelling public due to their criminal activities, with a focus on:
 - Sex Crimes
 - Employee Assaults
 - Generally Violent Persons
- The purpose of the OMP is:

- To improve the safety, security and confidence of the travelling public and transit staff by reducing crime and criminal re-offending.
- To monitor offenders on probation, bail or parole and make them more accountable through compliance checks and enforcement, and provide them awareness of other available community resources.
- Align our work with law enforcement / criminal justice partners by expanding and improving upon partnerships at the local, area and regional level with agencies with wider social agendas.
- Offenders assigned to the OMP are monitored regularly by a sworn member with each offender's file being updated as required (on a minimum of a monthly basis).

The OMP is overseen by the Transit Police Intelligence Officer.

2.2 Does your transit system ever ban or restrict members of the public from using your services?

Answer:

The Greater Vancouver Transit Conduct and Safety Regulation gives the authority to issue an order not to enter any transit property or specified transit properties for a period not exceeding 24 hours. We can also ask the court to apply conditions of bail or probation banning an offender from using the system as a result of a criminal charge or conviction.

We will also partially transfer this question to TransLink as they also have the authority for refusal/bans.

2.3 What type of issues can lead someone to be banned or restricted from using your transit system?

Answer:

From a Policing perspective – charges of a criminal nature could result in a ban or restriction.

2.4 How many people are currently banned from using your transit system?

Answer:

We do not maintain lists of persons banned from the system when these restrictions have been imposed by the court. These conditions are listed with the individual's police record and are available to police when dealing with these individuals.

On average, Transit Police issues 74 denial of access tickets (24 hour ban) each month.

2.5 Can you provide the list of people banned from your system and the reason each individual was banned?

Answer:

We are unable to provide you this information under s. 22(1) of FIPPA.

2.6 What measures are taken to enforce these bans?

Answer:

Where appropriate, notices/bulletins are distributed to police and on case by case basis, if deemed necessary TransLink Staff. Where bans are directed by the courts, these are recorded in the Police Records Management System associated with the individual and are brought to the attention of officers (along with any other court conditions) if the individual is queried through this system.

Where bans are imposed by the courts, an individual may be arrest-able for breaching these conditions.

2.7 When a court puts conditions on someone's use of transit, is this information conveyed to you? If so, how do you monitor these conditions?

Answer:

If the incident is related to another police agency and we are not supporting the investigation, we may not be advised, but would have access to the conditions through the Police Records Management System.

2.8 Does data exist on how many incidents of sexual assault or harassment were perpetrated by someone who had previously offended on your transit system?

Answer:

Transit Police monitors all sex crimes that occur on and proximate to the transit system and actively investigates these incidents. Where it is determined/suspected that incidents are related to a repeat offender, these individuals may be added to our Offender Management List where a dedicated project may be initiated.

Are you able to provide this to me or do I need submit an FOI request? If it is possible to provide me this data could you please provide it for each year from January 1, 2013 to December 31, 2017.

Answer:

This information is not available for disclosure under s. 15 and s. 22 of FIPPA

3.

3.1 Does the data from question 1 include incidents at stops or when people are followed from transit stops/stations? or only incidents on transit property?

Answer:

While the Metro Vancouver Transit Police enforce the law on and around transit property, the data provided at paragraph one is limited to incidents reported on Transit Buses and at Bus Shelters, on Skytrain, in subways and/or stations.

3.2 Are bus stops considered transit property?

Answer:

They are the property of the municipality.

3.3 Does safety at bus stops fall under your jurisdiction?

Answer:

Yes, jointly with the jurisdictional police agency. The Metro Vancouver Transit Police is dedicated to the safety and security of the travelling public and TransLink work force and to this end, works jointly with the jurisdictional police agency in each municipality to keep bus stops safe and quickly respond to any call for service from these locations.

3.4 What safety precautions are taken at bus stops?

Answer:

Random patrols are conducted by Metro Vancouver Transit Police as well as members of Transit Security, which works directly for the Coast Mountain Bus Company.

3.5 How many of your bus stops have some sort of safety feature at them?

Answer:

We will do a full transfer of this question to TransLink.

3.6 How many stops does your transit system have in total?

Answer:

We will do a full transfer of this question to TransLink.

4.

4.1 Can you please list the dates you have run campaigns against sexual harassment/assault on transit and describe what those campaigns involved from Jan. 1, 2013 to present date?

Answer:

Between November 2016 and January 2017, a poster campaign titled 'Unwanted Touching is a Crime' was conducted throughout the Metro Vancouver transit system. This campaign was created by the Metro Vancouver Transit Police in consultation with TransLink Marketing, the Ending Violence Association of B.C. and Battered Women Support Services. 80 posters were printed and displayed on SkyTrain cars, with messaging directed towards potential sex offenders stating 'Keep your hands to yourself' and providing contact details for the Transit Police (both phone and text).

Information can also be found on our website: transitpolice.ca

4.2 What current safety measures do you have in place to prevent sexual crimes on your transit system?

Answer:

There are two ways in which transit riders can discreetly contact the Transit Police if they have a safety or security concern and require assistance. One is to text our 87.77.77 text number. The other option is to download our SeeSay App and use it to send us a message. Both of these tools put the user in immediate contact with our 24/7 Transit Police Dispatch Centre and these tools are widely advertised through printed posters, our social media, community events attended by our Neighbourhood Police Officers and editorial coverage of our operations.

Transit riders may also phone the Transit Police at our 24/7 main number (604.515.8300). They can additionally push an emergency yellow strip or a red intercom located on the Skytrains, buses, SeaBus or West Coast Express trains. These alerts are received and responded to by transit authority staff. However, they will contact the Transit Police to respond when the situation warrants the assistance of a police officer.

In the event of an emergency, we always advise all passengers to immediately phone 9-1-1.

4.3 How long do you keep security camera footage?

Answer:

Partial transfer to TransLink as they are the custodians of non-related police incident CCTV

Routine video is not held by Transit Police. Video collected as evidence is securely held by Transit Police in accordance with prescribed retention/destruction schedules common to all police agencies.

4.4 Can you list any routes that exceeded the crowding standards in the past five years? Please include year, name of route that exceed crowding standard.

Answer:

We will do a full transfer of this question to TransLink.

4.5 Please provide the most recent gender breakdown of your ridership.

Answer:

We will do a full transfer of this question to TransLink.

5.

5.1 Can you please provide similar data to question 1 but on sexual assault/harassment of transit staff?

Answer:

We will do a full transfer of this question to TransLink.

Specifically, all reported incidents of sexual crimes against transit staff from January 1, 2013 to present date. Please provide all of the following information in an excel spreadsheet:

- date of incident
- general type of location of incident (bus, bus stop, train, train station etc.)
- route, if applicable
- specific address of incident
- type of incident (exhibitionism, groping, voyeurism, etc.)
- gender of perpetrator
- was the perpetrator also a transit employee
- gender of victim
- outcome of incident (criminal charges, ban from transit system, none etc.)

6. Can you please provide data on hate crimes January 1, 2013 to present date in an excel spreadsheet including:

- date of incident
- general type of location of incident (bus, bus stop, train, train station etc.)
- route, if applicable
- specific address of incident
- description of incident
- outcome of incident (criminal charges, ban from transit system, none etc.)

Answer:

Since 2013, Transit Police have recorded five incidents suspected of being what would generically be described as a “Hate Crime”. One of these was associated to an assault, one was related to uttering threats and four were associated to graffiti discovered on the transit system. Please note though that there is not an applicable specific offence of hate crime for these circumstances; rather, if a person is charged with an offence such as assault or mischief, and there is a conviction, then the hate aspect is considered as an aggravating factor for sentencing (see s. 718 of the Criminal Code).

A sheet with the requested data is included in the attached spreadsheet.

Subject: Request/s for Access to Information IM-MED-18-001 / 02 / 03

[REDACTED]

I hope you are well.

Further to our conference call on 2018-03-09, please find below the information as agreed upon pertaining to Repeat Offenders.

When looking at the Sex Assault data for the period 2013-2017 there were 43 individuals named (Subject of Complaint, Accused, or Charged) in more than one file. Of these:

- 34 were related to two files;
- 9 were related to more than two files; of which
- 3 were related to more than three files; of which
- 1 was related to more than five files

We will disregard the cost estimate previously given. This now concludes the information request.

Kind regards

[REDACTED]
